

Distinguished Service Award: Stevie Fenton

Nomination Testimonial:

Stevie has been a pillar of support for FRID for many years. She serves as needed, and she has an ability to willingly and seamlessly fit into any role that is asked of her. She has served on multiple committees, regularly attends the Board meetings, and provides unwavering support for the Board and in turn the membership of the organization. She chaired and led the Emergency Management Interpreting committee, which helped to develop and share best practices around the state. She has also been a leader in the Tallahassee community, and has worked faithfully and tirelessly for VR for many years. Despite having achieved many accomplishments, she does not seek recognition. I believe she is more than deserving of being recognized and honored with the Distinguished Service Award.
